

MANGO·one

MANGO.one is a **Central Platform** for Integrated Resorts and Hospitality and Retail to effectively engage with their customers, enhancing the customer experience and improving revenue.

With API-driven approach, **MANGO.one** integrates with internal and external systems, thereby **MANGO.one** users can maximize their communications channels to provide a 360-degree customer experience.

MANGO.one combines all relevant marketing information concerning contact with a client into one single view. You can then access all digital behaviors, online and offline transactions in a central location: contact information, emails received, tracking logs, subscriptions and unsubscriptions, etc.
